Module Purpose - To meet the objective of 2020 Hackathon for topic "Sitecore Hackathon Website"

Module Sitecore Hackathon Category - Sitecore Hackathon Website in JSS

How to setup the Sitecore JSS application:

- Setup your JSS App with name "AKS" from files available at <https://github.com/Sitecore-Hackathon/2020-AKS/tree/master/src>
- Install node modules using command ***npm install -g @sitecore-jss/sitecore-jss-cli***
- Start the app using command – ***jss start***

Why JSS:

- To enable front end developers to work in disconnected mode without having Sitecore instance in their machine. This reduce the license dependency for Sitecore development.
- To enable behavior and content to be consumed from Sitecore and functionality to come from other front-end technologies.
- Headless will make development of applications possible with Sitecore which means the information architecture and presentation architecture is decoupled.
- Apps can be built entirely disconnected from Sitecore - then deployed to Sitecore later (Sitecore install not required)

Hackathon History

Sitecore Hackathon 2019

The 2020 Sitecore Hackathon is a free online community driven event organized by [Ashley Sura](#) and supported by Sitecore. (Shout out to [Pieter](#), [Mark](#) and [Tamas](#)!)

Teams that have signed up by **8 pm EST February 14, 2020** will have the opportunity to participate in the contest. Eligible teams will have 24 hours — starting **Friday February 20th 2020 at 8PM EST** and ending **Saturday February 29th 2020 at 8PM EST** – to build and submit a Sitecore module best implementing the idea for the Hackathon, as determined by our panel of judges. The idea(s) will be announced an hour before the Hackathon starts on February 29th.

We had to choose a date so that we can make sure the announcements can be made at the SUSCON EU 2020 in Budapest.

Quick Stats

- 82 Teams participating
- Entries from over 23 countries
- Pictures from the 2020 Hackathon

Entry Submission Requirements

All teams are required to submit the following as part of their entry submission on or before the end of the Hackathon on Saturday February 29th 2020 at 8PM EST. The modules should be based on [Sitecore 9.3](#) and if you are using commerce it should be Sitecore Experience Commerce 9.3.

- Deploy package (.zip) or a Sitecore Module install package with proper installation instructions
- Module Code in the GitHub source repository (Provided)
 - Cleanliness of code
 - Commenting where necessary
 - Code Structure
 - Standard coding standards & naming conventions
- Precise and Clear Installation Instructions document (1 – 2 pages)
- Module usage documentation on Readme.md file in the GitHub Repository provided to you (2 – 5 pages)
 - Module Purpose
 - Module Sitecore Hackathon Category
 - How does the end user use the Module?
 - Screenshots, etc.
- Create a 2 – 10 minutes video explaining the module's functionality (A link to youtube video)
 - What problem was solved
 - How did you solve it
 - What is the end result

Judges

1. Community Judges

- Kamruza Jamani - [@kjamani](#)
- Andreas Luder - [@aluder](#)
- Jason Wilkerson - [@jasonwilkerson](#)
- Michael Reynolds - [@mreynolds](#)
- Nail Shakh - [@nshakh](#)
- Uma Verhoefen - [@umaverhoefen](#)
- Alex Washburn - [@awashburn](#)
- Michael West - [@mwest](#)

Prizes

The winning teams will each receive a \$200 Amazon gift card per team member, making the total \$600 per team for a three person team. The Amazon gift cards will be emailed to the email addresses on file no later than 10 days after the winning team is announced. If Amazon gift cards are not available in the region, alternate arrangements will be made.

We will showcase your company logo and/or your team photo on this website.

- No purchase necessary.
- Must 21 years or older at time of entry.
- Additional terms, conditions and restrictions apply.

F.A.Q.s

Q. How many members can be in each team?
A. There can only be 3 team members maximum in a team.

Q. Can I team up with other members not in the same organization and form a team?
A. Absolutely, you can team up with any other Sitecore developer to form a team.

Q. Do we have to work on our module all 24 hours of the hackathon?
A. No, you can schedule your time and strategize appropriately. You can use as much or as little of the 24 hours to build your module.

Q. I am a Team of One but want to participate, what can I do?
A. We see this every year, where we find either an individual or a team of two, get in touch with me, I can try to pair you up with others in the similar situation and help you form a team.
